SUMMARY

Full-stack developer with 4 years of experience building scalable enterprise web applications using JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB. Skilled in developing RESTful APIs and performance-optimized user interfaces for enterprise and assessment-based platforms. Experienced with AWS S3, CI/CD pipelines, and Agile development methodologies. Strong expertise in Redux Toolkit, React Hooks, and API integrations, with a focus on clean architecture and maintainable code. Currently deepening hands-on experience with Docker and AWS EC2.

SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, Redux Toolkit, React Hooks, Context API, HTML5, CSS3, Bootstrap, Material UI

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Redis Caching, API Integration

Database: MySQL, MongoDB

Cloud & DevOps: AWS S3, CI/CD, GitHub Actions, Git, Docker, AWS EC2

Tools: GitHub, GitLab, Bitbucket, Jira, SonarLint, GitHub Copilot

Methodology: Agile/Scrum, Code Reviews, Production Support

WORK EXPERIENCE

Integra Software Services Private Ltd, Chennai

Jul 2022 - Jun 2026

Associate L1 - Technology

- Developed and maintained scalable full-stack web applications using JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB across multiple enterprise projects.
- Designed and implemented reusable React.js UI components and RESTful APIs, following Agile/Scrum development practices
- Integrated Google reCAPTCHA into an internal enterprise application to strengthen login security, protecting access for 2,500+ employees across the organization.
- Implemented JWT-based authentication and Redis caching to enhance application security and improve backend performance.
- Integrated third-party APIs and developed backend services to support business workflows and application functionality.
- Collaborated with QA engineers, UI/UX designers, product owners, and cross-functional teams to gather requirements and deliver features on schedule.
- Performed code reviews, resolved SonarLint issues, and followed clean coding standards to improve maintainability and code quality.
- Handled production support, investigated defects, performed root-cause analysis, and delivered timely bug fixes for live applications.
- Participated in feature development, debugging, testing, deployment, and release activities throughout the software development lifecycle.

- Used Git, GitLab, GitHub Copilot, and ChatGPT to improve development productivity, code quality, and collaboration.
- Contributed to performance optimization, application stability, and continuous improvement initiatives, ensuring reliable and scalable enterprise applications

PROJECTS

iPubEdit - Editor Tool

Feb 2024 - Jun 2026

Team of 16 | JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB, Python, GitLab, AWS, Docker, Jira

- Built an automated web-based editor for academic manuscript editing before publication.
- Developed document handling and workflow automation features, cutting down manual editorial work.
- Built RESTful services in Node.js/Express.js and integrated third-party APIs for document processing.
- Worked with Python components alongside the JavaScript stack for automation scripts.

GRT - Branding Web Application for GRT Jewellers

Jan 2024 - Feb 2024

Team of 4 | JavaScript, React.js, Node.js, Express.js, MySQL, GitLab, Bootstrap, Material UI

- Built the UI for a branding tracking app used to monitor festival-time promotional assets across stores.
- Built reusable React.js components connected to backend REST APIs.
- Implemented responsive layouts with Bootstrap and Material UI.

Learning Management Systems (Skillpilot, AME, Dvara KGFs)

Jul 2022 - Jan 2024

Team of 8 | JavaScript, React.js, Node.js, PHP, MySQL, Bootstrap, GitLab/Bitbucket, Linux, Nginx

- Built and maintained three Moodle-based LMS platforms for employee training and assessments.
- Delivered UI features and performance improvements for stable production deployments.
- Took ownership of the Dvara KGF project end-to-end across three phases: development, deployment, and production support.

KEY ACHIEVEMENTS

- Employee of the Year - 2022
- Integra Q3 Nakshatra Award
- Best Performer on Project: independently owned the Dvara KGF project across three phases, from development through deployment.

EDUCATION

B.E. in Computer Science, Tagore Engineering College, Chennai

May 2021

LANGUAGES

English, Tamil
